Cost: Free

Registration: https://zoom.us/webinar/register/WN_Uy23WX81SiCgf_ZDM5AETA

Any queries or assistance: Please email webinar@applusfomentocontrole.com

On February 1st, 2020, the Ministry of Industry, Trade, Green and Digital Economy of Morocco under the law 24-09 on the security of goods and services, outsourced the control of export of industrial products to the Kingdom of Morocco. The Government established a transitional application period from February 1st, 2020 to June 20th, 2020, during which time the Certificate of Compliance was voluntary. As of today, the issuance of the certificate is mandatory for any company wishing to export into Morocco and **Applus Fomento Contrôle** is one of the companies authorized to issue the Certificate of Conformity (CoC) required by this Program.

This webinar, organised by Applus Fomento Contrôle in collaboration with the **Italian Trade Agency**, aims to clear up the exporter's doubts concerning the program and to raise practical questions regarding the new regulations.

The regulation divides the products subject to inspection into two lists: 80% of the products are inspected at origin and the remaining 20% are inspected at destination. Exporters are classified in three routes, depending on the route it will consist of a documentary verification, physical inspection, and laboratory tests.
